## Strategic Partnership

Platinum HRM of C&T signed long-term partnership with FSG to provide its customers with quality payroll outsourcing through the industry-leading human resources management system of Platinum. This partnership leverages the good branding and reputation of Platinum in China's HR market and the strong client base of FSG's HR services across the country.

## Platinum as Backbone of Reliable Payroll Services

This strategic movement for long-term partnership is the recognition of trust built on the many customer success stories that FSG created alongside Platinum's comprehensive core HRM functions and solid payroll module. Under the agreement, Platinum will serve as a master-data and payroll platform with employee self-service (ESS) modules to facilitate FSG's quality, efficient management of payroll outsourcing services delivered to a wide variety of clients, including leading multinational companies, state-owned enterprises and private businesses, particularly those in high-tech industries.

By synergizing the effects of Platinum's robust HRM system and FSG's professional HR services, this partnership enables both industry leaders to extend customer reach and accelerate business growth in the scope of payroll outsourcing, which has emerged as an answer for businesses, from SMEs to large corporations, to practice flexible and simplified HR management.
